

July 21st, 2026 Hybrid Meeting

11:30 AM

Santa Paula Branch Line – Rail with Trails Project

Speakers:

Alex Puga, PE, Senior Transportation Engineer
City of Ventura

Meeting Description:

The Santa Paula Branch Line – Rails with Trails Project will construct a four-mile multi-use trail along the railroad corridor between the East Ventura Metrolink Station and Wells Road. The project includes a multi-use trail, pedestrian bridges, HAWK (High Intensity Activated Crosswalk) signals, lighting, public art, trail monuments, drought-tolerant landscaping, fencing, and other corridor enhancements.

With a total project cost of **\$31.2 million**, this transformative project will improve active transportation connectivity, enhance safety for all users, and create a vibrant community asset linking neighborhoods, destinations, and transit services.
